FINISH IN FIVE

FastTrack Master’s Programs

Accelerated master’s programs give highly motivated students the chance to take graduate course work while still an undergraduate, thus allowing them to finish a master’s degree in less time than they could in a traditional program.

FastTrack students attend commencement ceremonies with both their undergraduate classmates and graduate classmates. Students interested in pursuing a FastTrack master’s degree at Florida Tech should refer to the program descriptions and requirements below and apply by contacting your academic advisor or graduate admissions.

FastTrack Program Descriptions and Requirements

**B.S./M.A.T. (Master of Arts in Teaching)**
